"Bamboozle is the only place that we can go as a whole family and be valued and accepted unconditionally. To feel this is a very special, powerful, and healing experience".
- Parent attending a Bamboozle Family Day

Nearly thirty years ago, Bamboozle began providing immersive and meaningful theatre experiences specifically designed for disabled children with complex needs. In 2010 we expanded to include creative workshops with children who are on the autistic spectrum.

In 2022 we reached just shy of **2000** children nationwide and provided **74 free activities** for Leicestershire families.

With your support, we want to reach more children, provide more free activities and create possibilities for children to be heard, express themselves and feel valued.

Each year we host a fundraising gala dinner and auction to sustain this vital work. We invite you to join us for a special black-tie evening where you'll be immersed in entertainment and enjoy a delicious three course meal whilst making a difference to your community.

"It's the best event of its kind that we go to!"

Tom Simpson - Director, Torr Waterfield Accountants

All of the funds raised help us to continue delivering our immersive experiences for learning disabled children and their families.
